DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 3, 2006 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 35 is rejected under 35 U.S.C. 102(b) as being anticipated by Houser (US Patent No. 5,774,859).

4. Regarding claim 35, Houser discloses an information system having a speech interface for controlling a device such as a television and for controlling access to broadcast information such as video, audio, and/or text information. The system of Houser implements recognizing spoken requests for television programming (col. 23, lines 47-50; col. 30, line 43 to col. 31, line 46); in response to recognizing spoken requests, referring to previous requests to interpret the spoken requests (col. 30, lines 49-58; col. 31, lines 21-46); generating responses to spoken requests for television programming (col. 30, lines 49-58; col. 31, lines 21-46); recognizing

commands for television programming (col. 18, lines 27-60; Table 1); and in response to a command, refraining from using information from prior requests to interpret the command (col. 19, line 26 to col. 20, line 62).
